Protective Hooded Coverall provides protection against spray of dry particles and liquid. Type 5B & 6B. Comes with boot cover.

Product Details

- The outer layer comprises a high-quality multi-pore membrane, while the inner layer consists of anti-adhesive polypropylene non-woven cloth. This combination ensures outstanding protection against the penetration of dust, liquid, blood, and blood-borne pathogens.
- It offers exceptional defense against the permeation of dust, liquid, blood, and blood pathogens. The material is highly breathable and comfortable to wear, effectively blocking solid particle aerosols and liquid splatter.
- With a design that minimizes fiber pollution due to the absence of flocks and an anti-static property suitable for painting, this protective gear includes a three-piece hood, butterfly sleeves, cuff thumb rings, elastic waist, and a triangle crotch for added functionality and comfort.

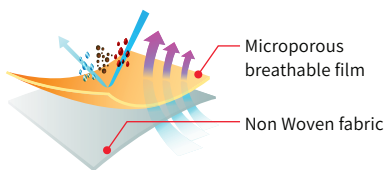

Applications

- Epidemic prevention
- Husbandry breeding
- Painting work
- Biopharmaceutical
- Radioactive particles protection in the nuclear industry
- Ordinary maintenance and cleaning work
- Other general industrial operation

Industries

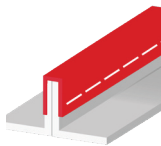

-  Hospitals
-  Chemical & Laboratories
-  Automotive
-  Pharmaceuticals
-  Manufacturing

Fabric Technology

Seam Structure

- Reinforced four-line stitching
- Stitch length: 3-4 stitch per CM
- Elegant and Sturdy
- Hard to crack

Packaging Information

1 Piece / Polybag

50 Piece / Carton

Carton Dimension - 52x38x40 cm

Carton Weight - 13.00 kg / 28.66 lbs
